

SAVES Program

January 2017— First Edition

MIAMI DADE COUNTY PUBLIC SCHOOLS

STEPS THROUGH SAVES

Yordani Oramas arrived in the United States a year and a half ago from the Province of Cienfuegos, Cuba. Since he was a young man in Cuba, he was interested in hair styling and obtained a license to work in this profession. When he arrived to the United States, he needed to revalidate his license to continue working in his field.

Through a friend, he learned about the SAVES Program and that it would cover the cost for his tuition in the Cosmetology program at Southwest Miami Adult Education Center as well as the books and equipment required for the class. He was thankful to receive through the SAVES Program, all textbooks, equipment and materials needed to obtain his new license in Florida.

The class schedules were also flexible and gave him the opportunity to work in the morning and attend school in the evenings. He appreciated that the classes were divided between theory and practice and the assistance received to prepare for the license exam.

Mr. Oramas thinks that both of his Cosmetology teachers are very good and knowledgeable in all branches of Cosmetology taught in the program. He would like to thank his teachers for being available for consultations and for being excellent human beings.

Mr. Oramas also wants to thank the SAVES program, the SAVES program staff

at Southwest, and the Cosmetology teachers for helping him prepare for the licensing process. We all look forward to his future success.
